OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the commissioner of administration who is appointed by the governor with the advice and consent of the Senate. The commissioner appoints the directors of the divisions. OA is comprised of seven divisions, including: **Accounting-** maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning-** analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction-** provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services-** provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; **Information Technology Services-** manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, IT education services, and network support to all state agencies; **Personnel-** provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing and Materials Management-** centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program.

In addition, the Office of Equal Opportunity (OEO) is a program housed with the Office of Administration and has primary responsibility for assisting in the coordination and implementation of minority and women participation programs throughout all departments of the executive branch of state government.

A number of boards and commissions' budgets are also assigned to OA including: Administrative Hearing Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); the Missouri Ethics Commission; and the Board of Fund Commissioners public debt (House Bill 1), which appears in a separate book entitled "Board of Fund Commissioners".

The Office of Administration administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, budget requests for those benefits appear in a separate book entitled "Employee Benefits."

2. CORE DESCRIPTION

The Office of Equal Opportunity (OEO) was created by Executive Order 10-24. The Director of OEO serves as the State Equal Employment Opportunity (EEO) Officer. The OEO Director has the primary responsibility of assisting in the coordination and implementation of workforce diversity programs throughout all departments of the executive branch of state government, and for advising the Governor on issues regarding equal employment opportunity, workforce diversity, and efforts to administer workforce diversity action goals and timetables for implementation throughout the departments of the executive branch.

Additionally, the Director of OEO serves as state's chief compliance officer for the executive branch of state government to ensure that the State of Missouri is complying with all federal and state laws concerning equal employment opportunity and workforce diversity.

OEO assists each department in developing a workforce diversity plan. Additionally, the State OEO Officer reviews progress reports of the departments and meets biannually with each department director to evaluate departmental results and determine the course of future workforce diversity goals, timetables, recruiting, planning, and implementation. The results of each meeting are reported in writing to the Commissioner of Administration. OEO submits a report to the Governor and the Commissioner of Administration annually, which summarizes the activities of each department and contains recommendations for additional programs to accomplish the goals of Executive Order 10-24.

In addition, The Director of the Office of Equal Opportunity (OEO) also has primary responsibility for assisting in the coordination and implementation of minority and women participation programs throughout all departments of the executive branch of state government, including programs to increase M/WBE participation in contracting opportunities and efforts to administer minority and women participation goals and timetables for implementation throughout the departments of the executive branch.

2. CORE DESCRIPTION

The State's appropriations for certain information technology resources from 14 different departments are consolidated under the Office of Administration, Information Technology Services Division (ITSD). The consolidation of these resources along functional units within ITSD has allowed the State to reduce average costs and leverage knowledge sharing and collaboration among IT professionals. Functional alignment of resources has further allowed ITSD to support the missions and specific business objectives of the consolidated agencies, while utilizing the increased buying power to receive better pricing on equipment purchases and software. ITSD continues to manage and implement new IT initiatives, including network consolidation, Email and server consolidation, and enterprise content management to create efficiencies within state government.

It is requested that 5% for General Revenue and 100% all other funding sources be designated as Flexible PS/EE. This flexibility is requested to help manage the IT consolidation for all participating departments. ITSD services are funded from 120+ appropriations ranging from just a few dollars to over \$54 million. Changing needs of departments served by ITSD require that funding be flexible so that proper spending from the proper sources are maintained. It is critical to the Division to optimize the IT systems and to maintain technical support so that EE operating costs are contained and managed. In addition, certain software, equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner.

Program is found in the following core budget(s): Information Technology Services Division Consolidation																	
<p>1. What does this program do?</p> <p>ITSD is the information technology unit for 14 consolidated departments. Within ITSD, consolidation along functional units has also allowed the State to reduce average costs for a number of services. Consolidation has allowed ITSD to leverage knowledge sharing and collaboration among IT professionals for improved service and allow the solving of problems once for the enterprise as opposed to numerous times for individual agencies. The mission of ITSD is to support, provide and inspire innovative technology solutions for State of Missouri departments and agencies – with Transparency, Timeliness and Efficiency as guiding values in transforming the way we operate and deliver government services to Missourians.</p> <p>This program provides IT services to the following departments and network services to all other Missouri state government agencies:</p> <table><tr><td>- Agriculture</td><td>- Corrections</td><td>- Economic Development</td><td>- Elementary & Secondary Education</td></tr><tr><td>- Health & Senior Services</td><td>- Higher Education</td><td>- Labor & Industrial Relations</td><td>- Mental Health</td></tr><tr><td>- Natural Resources</td><td>- Public Safety</td><td>- Revenue</td><td>- Social Services</td></tr><tr><td>- Office of Administration</td><td colspan="3">- Insurance, Financial Institutions and Professional Registration</td></tr></table> <p>Services are provided to the consolidated agencies through the following functional areas:</p> <p>Application Development End User Support Geographic Information Systems Information Security Networks Project Management Oversight State Data Center Unified Communications Fiscal & Administrative Services</p>		- Agriculture	- Corrections	- Economic Development	- Elementary & Secondary Education	- Health & Senior Services	- Higher Education	- Labor & Industrial Relations	- Mental Health	- Natural Resources	- Public Safety	- Revenue	- Social Services	- Office of Administration	- Insurance, Financial Institutions and Professional Registration

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	State Data Center (SDC)
Program is found in the following core budget(s): ITSD Consolidation Operating Core	

1. What does this program do?

The SDC was initially established in 1977 by consolidating the Department of Revenue and the Office of Administration computer centers. As part of the COMAP initiatives, the computer centers from the Highway Patrol, Social Services, and DOLIR were consolidated into the SDC. Savings are realized by the State through consolidating technical and operations personnel to maintain 24 hour services, as well as reducing hardware and software costs by sharing these capital expenditures. ITSD continues to consolidate stand alone services and data centers when it makes sense.

The SDC now represents the State's only 24 hour, 7 day a week mainframe data center. The SDC provides a number of mission-critical services to agencies, including CPU processing and storage for applications, such as MULES for the Highway Patrol, SAM II for the Office of Administration, MACSS and FAMIS for Social Services, and various tax systems for the Department of Revenue.

Agencies are billed by the Information Technology Services Division at rates developed through a Cost Allocation Plan based upon agency usage of the services (services are billed to the agencies' ITSD appropriations for consolidated agencies) and then collected into the Revolving Information Technology Trust Fund. Payments for the vendor services and equipment are then paid from the revolving fund.

The FY13 Cost Allocation Plan for the SDC has 94.7 FTEs budgeted with a total operating budget of \$25,337,449 including fringe benefits of \$2,059,065.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statute 37.005 authorizes the Commissioner of Administration to provide data processing services to agencies and the authority for billing.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2013 Planned Expenditures is the FY 2013 Cost Allocation Plan expenditure amount including transfers for Fringes and Other Transfers. The actual expense will depend upon the rate of agency utilization in FY 2013.

6. What are the sources of the "Other " funds?

Revolving Information Technology Trust Fund. The operations of the State Data Center are appropriated from this fund.

7a. Provide an effectiveness measure.

Various SDC billing rates are used to gauge the cost effectiveness of the SDC program. A goal of having billing rates to agencies equal to or lower than the previous year is targeted annually.

A cumulative comparison of the rates yields the following data :

SDC Category of Service	FY12 Rates	FY13 Rates	% Change
CPU Service Unit	\$0.00944	\$0.00688	-27%
CICS (on-line) Transaction Cost	\$0.00087	\$0.00101	16%
DASD (Storage) Cost	\$0.00867	\$0.00716	-17%
DB2 (Data Base) Cost	\$0.00216	\$0.00182	-16%
Laser Print	\$0.03098	\$0.03039	-2%

The SDC strives to keep the rates equal to or lower than the previous year. Rates can vary from year to year due to replacement of equipment and demand for services.

7b. Provide an efficiency measure.

The SDC has been able to reduce the Net Billing to agencies per MIP by over 65% since FY00. Net Billings is what was billed to agencies after all credits in a fiscal year. MIPS (Millions of Instructions Per Second) are an industry standard to measure computing power on mainframe computers and much of our software license costs are based upon our MIPS capacity.

2. CORE DESCRIPTION

This core request pays the State's communications bills and for unified communications (UC) equipment. All costs are Revolving Information Technology Trust Fund, and the amount requested is based upon historical costs and projected utilization of the telecommunication services. The expenses incurred are primarily for Budget Class 760 – Rebillable Expenses, which are paid to various telecommunication vendors who provide services for the network. These expenses are then reimbursed by agency billings through the fund. Detailed costs are provided in the annual Telecommunication Cost Allocation Plan.

The Communications Core Request enables the Division to pay for Telecommunications services incurred by state agencies. Through this core request, the Division will continue to provide quality telephone and data network services to state agencies. By being able to acquire service from vendors at a quantity discounted rate, the division is able to provide services at a reduced rate to state agencies. Agencies are then billed for their usage and the Revolving Administrative Trust Fund is reimbursed. Telecommunication services provided through this request are critical to the day-to-day operations of all state agencies. Not funding this decision item would not allow the State to pay its phone and data line bills. State phone line rates provided through this funding are lower than what an individual business line would cost an agency if an agency procured phone service on its own.

PROGRAM DESCRIPTION

Department Office of Administration

Program Name Telecommunications Services

PROGRAM IS FOUND IN THE FOLLOWING CORE BUDGETS: Information Technology Services Division - Telecommunications

1. What does this program do? Provide Telecommunication Services to State Agencies

Telecommunications services are provided to all state agencies, and some of the colleges and universities. Services include local phone service, long distance, data circuits, voice mail, dial-up Internet service, toll free (800) lines, wireless, and other telecommunication services. Services are acquired from telecommunication vendors through competitive bidding at quantity discounted rates. By centralization of this bidding process, the State is able to acquire services at reduced rates that would not otherwise be available to individual state agencies. Agencies are then billed by the Information Technology Services Division at rates developed annually through a Cost Allocation Plan. Agency payments are collected into the Revolving Information Technology Trust Fund. Payments for the vendor provided services are then paid from the same fund in a consolidated manner for all state agencies.

The program exists to provide quality telephone and data network services at reduced rates. Rates are lower than what agencies could obtain individually. In addition, charges are audited to determine that the correct rates are being charged by the providers. The State of Missouri is in the process of converting from an antiquated communications environment to a modern communications platform and system - called unified communications (UC). UC includes, but not limited to, Internet Protocol (IP) Phones, Personal Communicator, Telepresence, Mobility, and Meeting Place. These services allow for improved collaboration and communication in the most efficient and effective methods available within the state.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Authority for operating the Telecommunications section is in Chapter 37 of the State statutes.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?																							
OA Revolving Information Technology Trust Fund. The operations of the Telecommunications program are appropriated from this fund.																							
7a. Provide an effectiveness measure.																							
Various Telecom billing rates are used to gauge the cost effectiveness of the program. A goal of having billing rates to agencies equal to or lower than the year prior is targeted annually. Variances to this goal may be the result of unusual fluctuation in usage or the pricing in a category in a given year. Since Telecommunications bills agencies for its services, the rate structure is a tangible measure of cost effectiveness, and efforts are made continually to reduce the cost per unit cost.

Other Efficiency Notes (measures) regarding the Telecommunications Program that are difficult to Quantify

A. Savings to Agencies Paying 1 Consolidated Telecommunications Invoice

Agencies can receive one consolidated invoice and pay one monthly amount to ITSD as opposed to an invoice for each type of service to multiple vendors. Statewide, this represents a considerable savings in invoice processing for state agencies since several vendors provide services to state agencies and there are over 800 state entities that receive billings from ITSD each month. Because of our new billing system, the number of invoices per month was reduced from 1,600 to 800, and also saves agency staff time.

B. State Operator Services

The State Operator services are funded through this program. State Operators process hundreds of information calls from the public and state employees every day providing a "live" answering service to many citizens needing help in order to find answers to their questions. The operators also establish conference calls for state agencies and legislators saving travel expense and employee time. The State Operators are located in the Division of Personnel.

7c. Provide the number of clients/individuals served, if applicable.

All State agencies are served by the Telecommunications program. On a regular monthly basis, over 1,000 monthly Telecom billings are distributed to State entities. The monthly billings incorporate over 78,000 lines being billed each month. Most State employees have telephone lines or use data circuits serviced by this program.

7d. Provide a customer satisfaction measure, if available.

A committee comprised of agency communication coordinators, called the COMCOR committee, provides input on services provided, vendor issues and for communication of Telecommunication procedures and policies.

The Missouri Department of Higher Education (MDHE) was awarded a \$4.9 million grant from the Broadband Technology Opportunities Program to establish or expand 23 public computer centers in geographic areas that serve vulnerable populations. MDHE will collaborate with seven community colleges to launch the expanded services.

The computer centers will be "one-stop technology centers" for populations currently underserved by broadband internet. The funds will provide about 600 new workstations and 130 more computers in 19 new computer centers and four upgraded centers. Some centers will be located on campus, while others will be in workforce training centers, education centers and even a mobile unit.

Funds are needed for the final year of a federal ARRA grant to plan, design, and implement a health information network that incentivizes health care providers to adopt and use electronic health records and allow for the exchange of health information across institutions and providers to improve the quality and effectiveness of the care that is provided to patients in Missouri.

NEW DECISION ITEM

Executive Order 09-27 recognized the Health Information Technology for Economic and Clinical Health (HITECH) Act that sets forth a plan for advancing the effective implementation of electronic health records and the necessary infrastructure for secure exchange of health information to improve the quality of care and establish a foundation for health care reform. It also states a statewide health information network must be designed and implemented with clear policies and standards in compliance with state and federal law. The federal authority is the American Recovery and Reinvestment Act, 2009 (PL 111-5).

This funding provides for the creation of the central network and funds the Missouri Health Connections Office (MHC). MHC is the state-designated entity chartered to oversee development of Missouri's statewide health information network that will improve public health and patient care, reduce costs and empower patients.

MHC responsibilities include:

- Develop and implement a health information network, known as MHC HealthCare, which enables health care providers to meet any connected healthcare need, from clinical document sharing to fully integrated private or public health information exchange. HealthShare enables these organizations to leverage their existing IT systems, and the vast amounts of untapped patient data contained within them, to drive informed action and improved outcomes as well as support health care organizations in meeting meaningful use requirements.

- Conduct the configuration and implementation of MHC Direct Secure Messaging which is the ONC guided healthcare secure messaging platform required by ONC for all state-designated entities (DSS).

2. CORE DESCRIPTION

The Division of Personnel assists all branches of state government by providing an effective and efficient statewide human resource management function, as well as guidance in several areas. Along with the Division of Personnel, the Personnel Advisory Board is responsible for the operation of the Missouri Merit System, the UCP System and other HR management functions established by Chapter 36, RSMo. The director of the Division of Personnel and other division employees act as staff to the Board in its oversight and policy making responsibilities. The four major programs of the Division are as follows:

- The Employee Services section, which develops and administers position classification for agencies covered by the Uniform Classification and Pay (UCP) System; ensures employees are assigned to appropriate job classes and that new job classes are assigned to the appropriate pay range; reviews applications for employment within the Merit System; and develops, updates and administers Merit System examinations.
- The Pay, Leave and Reporting section provides information on the UCP System pay plan; interprets policies on pay, leave and hours of work; provides assistance with the SAM II HR/Payroll System; maintains registers of people from whom agencies can select for Merit System jobs; ensures personnel transactions are in compliance with Chapter 36, RSMo; coordinates labor relations activities in individual state agencies including participation in negotiations with employee-elected unions and approval of agreements relating to uniform wages, benefits and those aspects of employment that have a fiscal impact on the State; and administers the Productivity, Excellence and Results for Missouri (PERforM) State Employee Online Appraisal System.
- The Center for Management and Professional Development develops and delivers management and supervisory training programs as well as computer and technical training programs; administers statewide recognition programs; and coordinates the WeSave employee discount program.
- The Human Resources Service Center (HRSC) provides administration of human resources by providing a single point of contact for Office of Administration management and employees to obtain consistent responses to human resources situations and issues. Within this section, the state operators provide responses to questions from the general public.

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Employee Services
Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

The Employee Services section has two main responsibilities: administering job classification activities for agencies in the Uniform Classification & Pay (UCP) System and the employment application process for positions with Missouri Merit System agencies. Staff of the Employee Services section develop and maintain job classes and evaluate and allocate new and existing positions in support of the UCP System. Classification determinations strive to assure that jobs are appropriately classified and compensated within and among UCP agencies; ensure equal pay for equal work; and maintain consistent application of class concepts among UCP agencies. Staff and agencies work together to identify new or evolving positions and classes, establish ways to evaluate positions, and identify positions which can be established through streamlined procedures. The Merit System applications are processed in one of three ways: analyst-based reviews; applicant self-assessment; or a combination of the two. The Electronic Application System (EASe) provides greater applicant convenience by storing personal/applicant data which can be applied to future applications. A goal is to place most, if not all, job classes on EASe. Additionally, we partner with agencies to manage the overall recruitment for merit system classes and assess opportunities to utilize additional on-line recruitment services.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Article IV, Section 19 and Chapter 36, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Some agencies may be required to be covered by a merit system as a condition of receiving federal funds.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

NA

7a. Provide an effectiveness measure.

*The marked change in this performance measure in FY12 is attributed to two large scale review efforts that required extensive agency input and interaction that resulted in a great expenditure of time for resolution.

7b. Provide an efficiency measure.

*In FY 2006 (May 2005) the Division of Personnel implemented EASe (Electronic Application System) which caused a downward trend in postage costs. Most correspondence with applicants is now accomplished through email. The implementation of this system was very timely in that the Division's EE budget was cut in FY 2006 by almost \$75,000 requiring a severe reduction in spending.

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

The Division of Personnel transitioned to an applicant-based, self-certifying Electronic Application System (EASe) to provide greater applicant convenience and reduce the length of time to get applicant names added to the registers, thus providing faster response for both agencies and applicants. As a result of this change, the Division has assumed a different role of assisting appointing authorities in obtaining a qualified and effective workforce by auditing employment registers and/or certificates upon request. This measurement will reflect the number of audits, the resulting determinations, and their impact on individual applicants and employment registers.

PROGRAM DESCRIPTION

Department Office of Administration

Program Name Pay, Leave and Reporting Section

Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

Staff maintains registers of qualified applicants and certifies names of applicants to merit system agencies. Certificates returned to Personnel designating an appointment are audited for accuracy and matched with the ensuing appointment in the payroll system to ensure compliance with statutes and the regulations. Staff audit and approve personnel transactions submitted by Uniform Classification and Pay (UCP) System agencies through the SAM II HR/Payroll system. The timely approval of transactions is very important as the pay of employees is frequently affected. This section administers the regulations governing pay, leave, hours of work, overtime, certification, removal from registers, transfers, political activity, conflicting employment, and layoff. Staff helps maintain the UCP System pay plan which includes drafting annual pay plan recommendations from the director of Personnel to the Personnel Advisory Board. This section maintains the HR-related tables in the SAM II HR/Payroll system that have been assigned to the Division of Personnel. In addition, staff provide consultation and run reports from in the SAM II HR Data Warehouse. This section provides a central labor relations function for the state which coordinates labor relations activities including negotiations as required by Chapter 36. The section also administers and provides consultation to agencies on the MAIRS applicant tracking system, the EASe on-line application system and the PERforM performance appraisal system.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 36, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Although Pay, Leave and Reporting functions are not mandated by Federal law, section staff provide advice and consultation in areas such as Federal overtime, minimum wage, FMLA, Military Leave, etc.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

PROGRAM DESCRIPTION

Program Name Pay, Leave and Reporting Section

7a. Provide an effectiveness measure.

A survey of several state departments was performed to show how they characterized the effectiveness of the current human resources structure with regard to the following HR functions and services: Transaction Processing; Recruitment; Labor Relations; FMLA; Employee Investigations; Employee Relations; Classification and Compensation Adjustments.

7b. Provide an efficiency measure.

The Division of Personnel collects and analyzes data in order to prepare the annual pay plan recommendations. We participate in surveys with other states in order to collect salary data on a variety of job classifications that aren't likely to be found in the private sector, such as Corrections Officers. While information is helpful to have, the private sector companies are our real competition in the state of Missouri. For confidentiality, competitive, and legal reasons, most private companies will not release their salary data. We pay a third party in order to obtain that data. Previously, we paid approximately \$800 dollars for Missouri salary survey information. Recently that company changed their methodology and the number of matches have decreased significantly. We researched other companies that offer salary survey information. Most are expensive and well beyond our budget. However, we discovered one company that is well established, respected in the field, and offers several efficiencies. First, we save time by not participating in two surveys, which take a couple of weeks each to complete. Second, the information is updated quarterly rather than annually. Third, we can download reports anytime throughout the year rather than just receiving one report. Finally, we can obtain data regionally, statewide, or by three of the larger cities.

7c. Provide the number of clients/individuals served, if applicable.

The number of clients served by the section are numerous. For example, the Employee Relations manager deals with the eight unions (eleven bargaining units) representing state employees. The SAM II HR/Payroll staff provide assistance to the agencies, while maintaining reference tables and providing some statewide reporting from the SAM II HR/Payroll Data Warehouse. The Transaction Audit Unit provides assistance to human resources staff in 12 state agencies (representing about 39,047 employees) on the SAM II system, Chapter 36 and the related regulations. In addition, staff approved 53,374 personnel related transactions in FY 2012. The Certification Unit works with the 9 merit system agencies representing about 32,195 merit system employees and thousands of job applicants in maintaining their status on various registers. During FY12, 6,417 certificates were generated. These certificates included the names of 234,563 applicants. Staff also administer the electronic application system (EASe) and applicant tracking system (MAIRS). Pay Administration supports the 12 Uniform Classification and Pay Agencies covering about 34,898 classified and covered employees. The section also provides assistance to all agencies on the federal Fair Labor Standards Act, hours of work, and the leave rules, and other human resources-related areas.

1. What does this program do?

Chapter 36 prescribes that the Division of Personnel will develop, initiate and implement a central training program for executive, managerial and supervisory development in Missouri state government. The Division's Center for Management and Professional Development (CMPD) develops and delivers management and supervisory training programs (workshops and webinars) according to guidelines established by the Management Training Rule (1 CSR 20-6). These workshops employ best practice leadership development strategies from training partners such as Franklin Covey, the Center for Leadership Studies, Achieve Global, Development Dimensions International, State universities, other local colleges, individual development consultants and Division staff. The programs are available to state, city and county government agencies and private sector businesses. In addition, the Division sponsors membership to the Institute for Management Studies (IMS), an international, not-for-profit educational and professional development organization offering specialized training programs each month in Kansas City and St. Louis conducted by leading practitioners in the area of management. CMPD also provides computer and technical skills training programs to help individuals increase their proficiency in Microsoft Office programs and other specialized software applications. CMPD's computer training labs also allow agencies to bring their employees together in a pre-prepared training environment to increase staff proficiency in specialized or agency specific software programs. Staff of the CMPD also administers statewide recognition programs including State Employee Recognition Week, State Employee of the Month, the Missouri Relies on Everyone (MORE) State Employee Suggestion System, Missouri State Employees Award of Distinction, the Governor's Award for Quality and Productivity, and the new employee recognition website, In the Spotlight. CMPD also coordinates the WeSave Employee Discount Program.

7a. Provide an effectiveness measure.

Each year, the Division of Personnel requests state agencies provide information about the development of their managers and supervisors to include in the Division's annual report. The information included in the FY11 annual report reflects data received from Executive Branch agencies that responded to our request. The report indicated that agencies remain committed to the professional development of their managers and supervisors; and of those agencies responding, 67% tracked compliance with the Management Training Rule.

7b. Provide an efficiency measure.

During FY12, the CMPD provided 224 training programs for state employees, managers, supervisors and executives provided at a cost per hour of approximately \$12.00 or \$23.75, based upon a cost of \$95.00 for either a 1-day or 4-hour workshop. The average national cost per hour agencies and organizations invest in the development of similar training for their employees is \$62.00 (Source: ASTD's 2010 State of the Industry Report).

7c. Provide the number of clients/individuals served, if applicable.

The CMPD provides training opportunities for all state agencies and others who wish to take advantage of training made possible through the CMPD. In FY12, approximately 4,177 training participants enrolled in at least one of the workshops made possible through the CMPD. This number includes approximately 498 employees who received specialized training from their agency using CMPD's computer labs.

7d. Provide a customer satisfaction measure, if available.

One measure of customer satisfaction is feedback received from training classes. Based upon a random sample of the participant training evaluations in FY12, approximately 95% of attendees were satisfied with the overall training experience, and about the same percent would recommend this training to others.

2. CORE DESCRIPTION

This core request is for funding to promptly refund the bidder's bid or performance security that was deposited into the State Treasury during the procurement process. Checks are received from vendors as bid or performance security and deposited into the State Treasury. Interest earned on these deposits goes directly into General Revenue. After the bids are awarded or the contractor has performed, these deposits must be promptly refunded to the bidder or contractor. These are refundable deposits and not payments to the State.

2. CORE DESCRIPTION

This core requirement is for funding to provide surplus property services. The Division of Purchasing and Materials Management (DPMM) is responsible for operating the Federal Surplus Property program as provided in Chapter 37, RSMo. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property program. The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and service educational activities). All expenses incurred by SASP for operating the Federal Surplus Property program are recovered through service charges applied to property acquired by eligible entities.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Surplus Property

Program is found in the following core budget(s): Federal Surplus Property-Operating

1. What does this program do?

The Division of Purchasing and Materials Management (DPMM) is responsible for operating the Federal Surplus Property program as provided in Chapter 37, RSMo. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property program. The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the Federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and service educational activities). All expenses incurred by SASP for operating the Federal Surplus Property program are recovered through service charges applied to property acquired by eligible entities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 37, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Federal Surplus Property Fund (0407)

2. CORE DESCRIPTION

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction (DFMDC) to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications, tenant services that support agency programs, replacement, and repair costs, and other support services at state facilities when recovery is obtained from a third party. DFMDC bills agencies for such costs via the interagency billing process.

This pass through appropriation gives DFMDC the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. The Division also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.

2. CORE DESCRIPTION

Core appropriation authority to make payments from the Property Preservation Fund - a self-funded alternative to the purchase of property insurance for bonded state owned or leased facilities. The State of Missouri is required under bond covenants to purchase property insurance for bonded state buildings to protect the bondholders should the assets backing the bonds, the covered buildings, be damaged or destroyed. Prior to the passage of legislation creating the Property Preservation Fund, over 92.5% of the value of all state property was uninsured. The remaining 7.5% was covered by property insurance. The fund was created to provide coverage to named property for purposes of repairing or replacing state-owned or leased property damaged from natural or man-made events. Only if a loss to a covered building occurs would a payment be made. The fund is estimated to save the state over \$1 million annually in insurance costs.

This appropriation will be used to repair or replace certain state-owned or leased property damaged from natural or man-made events. Due to the uncertainty of losses, actual expenditures from the fund may fluctuate significantly from year to year. In any given year there is the risk that a bonded building may be damaged and the state would be liable for the cost to repair or replace the damaged building. Over the past 25 years, there have been only two claims totaling \$281,000 for losses to covered bonded buildings. This appropriation is requested on an estimated basis.

2. CORE DESCRIPTION

Appropriation authority to purchase required raw materials used in the production of final goods and services to state agencies. State Printing, Vehicle Maintenance, Fleet Management, and Central Mail Services use this revolving fund appropriation to purchase inventory (e.g., paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies. This appropriation is also used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles and supporting expenses for the consolidated Jefferson City carpool.

The amount of paper, vehicle parts, postage, fuel, services, or supplies acquired is directly dependent on the level of demand by agencies. Funds appropriated for rebillable expenses is used for the purchase of raw materials or goods placed in inventory for later conversion or sale and for services obtained that are necessary to produce final goods or services. Equipment, maintenance, and rebillable coded expenditures required to produce the final goods or services are paid from this appropriation.

This appropriation will also be used to replace property, damaged through the fault of a third party, to the extent recovery is made from the third party or their insurer. This allows state agencies to replace state owned property that is destroyed through the fault of a third party. Also, under Section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

During FY11, mail services for the Department of Social Services was consolidated with most other state agencies in the Jefferson City area. Phase II of the mail consolidation effort resulted in a 50% reduction in the staffing levels required to process DOSS mail. Central Mail Services is now responsible to purchase postage for DOSS and recover those costs through charges to the department. Postage Increases taken by the USPS is increasing the cost of postage used by the state to conduct agency business.

The division is also consolidating agency car pool fleets in the Jefferson City area. This effort will lead to a more efficient and better utilized fleet for use by state agencies. This appropriation will be used to pay the fuel, maintenance and depreciation costs for the fleet that will be recovered through charges to state agencies.

This request from the Revolving Administrative Trust Fund will increase the rebillable appropriation to the anticipated level required to provide the requested goods and services.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This increase is needed to meet the anticipated mailing demand from state agencies and to fund the expected increase in postal mailing rates that are adjusted each year. The USPS can increase the postage rates each year up to the increase in the CPI. However, the Postal Regulatory commission can allow rates to rise above the statutory cap under extraordinary or exceptional circumstances. For 2012, the increase was 2.1%.

Second, the division is in the process of consolidating agency car pools located in the Jefferson City area. Total consolidated vehicles in the pool will increase from 49 vehicles in FY 10 to 201 vehicles by the end of FY 13. Operating costs including fuel and maintenance as well as depreciation expense are initially paid through this appropriation and then charged to agencies using the pool. Total miles driven by the consolidated car pool is expected to increase from 3.5 million miles in FY 12 to 4.45 million miles in FY 14. Total trips are projected to increase from 12,034 in FY 12 to 14,000 in FY 14.

The additional costs from these two programs will increase rebillable expenditures by approximately \$1 million.

2. CORE DESCRIPTION

The Administrative Hearing Commission was established under Chapter 621, RSMo. Its purpose is to hear and decide cases arising from disputes between state agencies and private parties. The mission is to serve the citizens of Missouri by holding hearings, reviewing settlements, and issuing timely decisions in cases that involve taxes, professional licenses, public safety, Medicaid and other matters. That mission has been expanded to include proceedings for IDEA contested cases.

The core budget request is for the AHC to process cases, hold hearings, produce transcripts, and issue decisions.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER:	31212	DEPARTMENT:	Office of Administration
BUDGET UNIT NAME:	Administrative Hearing Commission	DIVISION:	Assigned Programs
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.			
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
\$33,000	Unknown	Unknown	
3. Please explain how flexibility was used in the prior and/or current years.			
PRIOR YEAR EXPLAIN ACTUAL USE		CURRENT YEAR EXPLAIN PLANNED USE	
The flexibility was primarily used for court reporters. Also, it allows the AHC to pay for office supplies, Westlaw costs, and computer software maintenance		Flexibility use for current year is unknown at this time.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Administrative Hearing Commission

Program is found in the following core budget(s): Administrative Hearing Commission

1. What does this program do?

The Administrative Hearing Commission (AHC) provides business entities and private citizens with an impartial review of decisions made by state agencies. The AHC hears and decides cases involving millions of dollars in tax and Medicaid reimbursement revenues; serious threats to public safety such as unsafe nursing homes, enforcement of the liquor control laws, and peace officers' certificates; and discipline of professional licenses. New statutes add to our jurisdiction almost every year. For example, in the past several years, statutes have transferred jurisdiction over motor carrier and railroad safety matters, surety agent licenses, and motor vehicle dealer licenses to the AHC. Additionally, the AHC serves as hearing officer through a memorandum of understanding with certain other state agencies whose cases do not fall into our statutory jurisdiction, most notably the Department of Agriculture, the Missouri Commission on Human Rights, and the Missouri Consolidated Health Care Plan. The Department of Natural Resources was previously included in that group; however, HB 824 transferred the authority to hear appeals from the Hazardous Waste Management Commission, Land Reclamation Commission, Safe Drinking Water Commission, Air Conservation Commission, and Clean Water Commission to the AHC beginning August 28, 2005. On August 28, 2010, the AHC gained jurisdiction over personnel cases formally adjudicated by the Personnel Advisory Board including discipline stemming from termination, demotion and/or whistle blowing. On February 14, 2012, the Missouri Supreme Court issued *Legends Bank and John Klebba v. State of Missouri, et al.*, which returned jurisdiction of the Ethics Commission cases to the AHC. On August 28, 2012 (per SB 595), the AHC will have jurisdiction over the IDEA cases previously heard by the Department of Elementary and Secondary Education.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 621, RSMo creates the AHC and sets forth its procedures and jurisdiction.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

IDEA is a federally mandated program.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

FY13 Administrative Hearing Commission Educational Due Process Hearing Fund (0818)

7a. Provide an effectiveness measure.

1. Percentage of cases disposed in desired timeframes.

Goal: 90% within 18 months
98% within 24 months

**Case Processing Time Standards:
Age of Case at Disposition**

	Goal	Actual Performance			Projected Performance		
		FY 2010	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015

Within 24 Months*	98%	97.9%	97.0%	94.50%	98.0%	98.0%	98.0%

* The times refer to the time between the date a case is filed and the date it is finally disposed at the AHC.

7b. Provide an efficiency measure.

Ratio of cases closed to cases opened.

*Average figure is more accurate measure than any one year as it corrects for unusual patterns that may occur at the beginning or end of a fiscal year.

**Projections will not be accurate because we do not control the number of cases filed. However, there has been a steady increase in cases closed and opened in the past few years. We base our projection on those numbers. Part of this increase is due to the AHC's jurisdiction over appeals from employment actions against state merit employees. This jurisdiction began on August 28, 2010.

7c. Provide the number of clients/individuals served, if applicable.

Actual numbers are 2062, FY10, 2688, FY11 and 2,632 FY12. A number of parties, including some state agencies, have many cases before the AHC each year. In this graph, each party is only counted one time even if that party had multiple cases at the AHC. Projections are made for current Fiscal Year 2013 and for future Fiscal Years 2014-2015. The increase in actual client/individuals served beginning in 2011 is in part a result of our expanded jurisdiction over grievances filed by state employees that formally were adjudicated by the Personnel Advisory Board. Additionally, the IDEA cases will require approximately 75 more days of hearings each year, along with an additional 60-90 hearing requests.

7d. Provide a customer satisfaction measure, if available.

<p>The passing of Senate Bill 595 gave the AHC jurisdiction over the Individuals with Disabilities Education Act (IDEA) Due Process hearings that were previously conducted by the Department of Elementary and Secondary Education (DESE). These hearings involve sensitive topics and complex areas of law. In the past two years, DESE has received approximately 100 IDEA cases filed each year. This additional jurisdiction would require the AHC to expand our staff to accommodate the increased caseload.</p> <p>As required by Section 162.961, AHC Commissioners will hear these due process cases. Hearing lengths may last up to several days. With a full caseload already, the AHC will need additional staff to ensure that we are able to comply with state and federal deadlines.</p> <p>Some of the EE expenses may be directly billed to DESE and paid via federal funds.</p>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DESE provided an approximate number of cases that are filed annually. In order to process 100 additional cases/hearings, we will need at least one commissioner, one attorney, .5 paralegal, .5 court reporter, and .5 senior office assistant. We will need the additional commissioner to conduct the hearings, an additional attorney to draft decisions, and three part time staff positions to assist in the processing of these files and cases. Currently, all of our staff have full caseloads, and unless we expand our staff, we will be unable to meet IDEA federal standards and section 162.961. Previously, DESE contracted with a large number of hearing officers that all had their own staff. At the AHC, we have very limited staff for this function, and require more people to facilitate these complex hearings.

The five requested positions is equivalent to 3.5 FTE. We have requested supplemental funding for 10 months of FY 13 (Sept-June) because we received jurisdiction of the IDEA cases on August 28, 2012.

Our request for PS, EE, and FTE is included in the TAFP fiscal note.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In June 2011, the State issued Series A 2011 Refunding Certificates of Participation (COPs) in the amount of \$76,910,000, which refunded the Series A 2005 COPs. The proceeds of the COPs were used to refund four (4) series of lease/purchase certificates of participation as follows:

	Principal Refunded
MO Public Facilities Corp Series A 1994 (St. Louis Acute Care Psychiatric Hospital)	\$13,945,000
MO PRC Corp Series A 1995 (St. Louis Psychiatric Rehabilitation Center)	\$13,400,000
NW MO Public Facilities Corp Series B 1995 (Northwest Psychiatric Rehabilitation Center)	\$9,915,000
MO Public Facilities Corp II Series A 1995 (Bonne Terre Prison)	\$87,700,000
	<u>\$124,960,000</u>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Debt service amounts for these Certificates of Participation (COPs) vary from year to year due to different maturity dates and interest rates of the COPs. The amount required for the FY 14 payments is greater than the FY 13 core as follows:

	Principal Outstanding as of 07/01/12	Final Maturity	Fund	FY 13 Core	FY 14 Request	Difference
Series A 2005 Refunding COPs	\$76,910,000	10/01/2018	0101	\$1,307,532	\$12,984,094	\$11,676,562

1. What does this program do?

This program provides for payment of various fees associated with outstanding debt, such as paying agent and escrow agent fees, arbitrage rebate, refunding costs and defeasance costs. It also provides for lead and supporting roles in most state debt financings. Included in this oversight is contact with the three rating agencies. Debt included in the oversight includes special obligation bonds, lease/purchase debt, convention center and dome financings and certain projects associated with the Missouri Health and Educational Facilities Authority (MOHEFA). The following explains the various debt being managed:

Special Obligation Bonds: The Board of Public Buildings is authorized to issue \$945 million in special obligation revenue bonds in accordance with RSMo, 8.420 and 8.665. The amount of authorization outstanding and not issued is \$73.8 million. There are four (4) series of Board of Public Buildings bonds outstanding as of 7/1/12 in the amount of \$567,490,000. To date, the final series of bonds will mature on 10/1/31.

Certificates of Participation: There are four (4) lease/purchase agreements outstanding. These consist of the St. Louis Acute Care Psychiatric Hospital, the St. Louis Psychiatric Rehabilitation Center, the Northwest Psychiatric Rehabilitation Center, and the Bonne Terre Prison. In March 2005, the state issued Refunding Certificates of Participation Series A 2005 to refund the original certificates of participation associated with the four lease/purchase agreements. In June 2011, the state issued Refunding Certificates of Participation Series A 2011 to refund the Series A 2005 Refunding issue. The principal amount of certificates outstanding as of 7/1/12 is \$76,910,000. The certificates will mature on 10/1/18.

MOHEFA: The Missouri Health and Educational Authority issued \$35,000,000 of bonds for the University of Missouri-Columbia arena project. The State has entered into a financing agreement to pay the annual debt service on these bonds. In November 2011, the MOHEFA issued refunding bonds to refund the Educational Facilities Revenue Bonds series 2001. The principal amount of bonds outstanding as of 7/1/12 is \$20,125,000. The bonds will mature on 10/1/21.

Convention Center and Sports Complex: In accordance with RSMo, Section 67.638-67.645, certain cities and counties are allowed to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating sports, convention, exhibition, or trade facilities. The State may then contribute annually to each fund. The State has agreed to and is currently contributing to two separate funds, the Bartle Hall Convention Center in Kansas City and the Jackson County Stadium Complex. The State's contribution will continue through Fiscal Year 2015.

Section 67.650-67.658, RSMo allows for the establishment of the Regional Convention and Sports Complex Authority. The Authority issued Series A 1991 (State sponsored) Bonds in 1991. The proceeds were used in addition to proceeds from St. Louis City and St. Louis County sponsored bonds, to build the Edward Jones Dome in St. Louis. In 1993, the Authority refunded the callable portions of the Series A 1991 Bonds by issuing Series A 1993 Refunding Bonds. In 2003, the Authority refunded the outstanding bonds with Series A 2003 Refunding Bonds. The State contributes \$10 million annually to the Authority to be used for debt service payments on the bonds. The State is also required to contribute \$2 million annually for maintenance of the facility. Final debt service payment to the Authority will be made on August 1, 2021. The final contribution for maintenance will be made on August 1, 2023. The amount of bonds outstanding as of 7/1/12 is \$76,780,000.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	Debt Management
Program is found in the following core budget(s):	

Missouri Development Finance Board: In FY 06, the Board issued \$28,995,000 of Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 dated November 1, 2005. These bonds were issued to finance the purchase of one building in Florissant, one building in St. Louis, and one building in Jennings. Missouri Development Finance Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 dated May 1, 2006. These bonds were issued to finance the purchase of one building in St. Louis. The State has entered into a lease with the Board. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the bonds. As of 7/1/12, the amount outstanding on the Series 2005 Bonds is \$24,445,000 and the Series 2006 is \$8,335,000.

ESCO Debt: FMDC has utilized authority in Section 8.235.4, RSMo to finance projects to produce energy savings, reduce consumption, reduce pollution, and increase productivity at facilities around the State. Projects have been financed for 15 years at interest rates between 2.20% and 4.03%. In 2011, the outstanding leases were refinanced to reduce the interest rate to 2.3%. The principal amount of contracts outstanding as of 7/1/12 is \$47,697,772.

Unified Communications: The Office of Administration entered into a lease purchase agreement to provide financing for the purchase, upgrade and replacement of the State's telecommunication equipment. The project will be implemented in multiple phases, including the Jefferson City area in phase I and the St. Louis and Kansas City areas in phase II. Financing for the project is over a 7-year term with an interest rate of 2.99%. Phase I was refinanced in 2012 to reduce the interest rate to 1.14%. The principal outstanding as of 7/1/12 is \$13,866,064.

The personal service and expense and equipment costs associated with this program, are not included in the costs presented in this form. Those costs are included in the Accounting Operations within the Division of Accounting. It is not cost beneficial to track the costs by program because of the overlap of job duties. The cost listed in this form are for the direct payment for debt and fees associated with that debt.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 8, RSMo; Sections: 67.638-67.645; 67.650-67.658; 178.892-178.896; and 288.128, 288.310, and 288.330, RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

PROGRAM DESCRIPTION

Department Office of Administration
 Program Name Debt Management
 Program is found in the following core budget(s):

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Above costs do not include personal service and expense and equipment cost for support staff.

6. What are the sources of the "Other" funds?

Facilities Maintenance Reserve Fund (0124)
 State Facility Maintenance and Operation Fund (0501)
 Revolving Information Technology Trust Fund (0980)

7a. Provide an effectiveness measure.

Prompt payment of principal and interest results in adherence to statutory requirements and to bond resolutions and other financing agreements. This promotes sound financial management and helps to maintain the State's AAA bond rating. 2. CORE DESCRIPTION

This core request is to provide a funding contingency for new jobs training and job retention certificates' debt service cost in the event of non payment by the issuer. Sections 178.892 to 178.896, RSMo establishes the New Jobs Training Program and Sections 178.760 to 178.764, RSMo establishes the Job Retention Program. Essentially, businesses establishing new jobs in the State or retaining current jobs can enter into an agreement with a community college district to provide training for new employees. The training is funded from the proceeds of certificates issued by the community college district. Debt service on the certificates is payable only from Missouri withholding tax credits of the (first) new employees or (second) existing employees. If the business would sharply decrease or eliminate its operations, funds may not be available to meet debt service costs, therefore an "E" is being requested.

2. CORE DESCRIPTION

This core request is to provide funding for the State's contribution to the Bartle Hall Convention Center in Kansas City. Sections 67.638 - 67.645, RSMo allow certain cities and counties to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating within its jurisdiction, sports, convention, exhibition, or trade facilities. The state may then contribute annually to each fund. The state began contributing to the fund in Fiscal Year 1991 and has agreed to continue through Fiscal Year 2015.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	CMIA and Other Federal Payments
Program is found in the following core budget(s): CMIA and Other Federal Payments	

1. What does this program do?

This program provides for payments to the federal government for items such as interest, refunds, and penalties.

The Federal Cash Management Improvement Act of 1990 and 1992 requires that the State track the draw down of federal funds for programs that exceed the threshold, as calculated using program expenditures. Interest is calculated using the daily equivalent of the annualized 13-week average treasury bill rate (4.18% in FY07, 5.02% in FY08, 2.99% in FY09, 0.60% in FY10, 0.12% in FY11, and 0.12% in FY12). Interest calculated on program disbursements from July 2011 through June 2012 is due in March of 2013.

The State also prepares a Statewide Cost Allocation Plan in accordance with OMB Circular A-87. This plan is used to allocate central service costs to various federal programs. The federal Department of Health and Human Services reviews the plan for adherence to the Circular. Reimbursement to the federal government may be required for any disallowed cost. In FY 06, \$950,000 was reimbursed to the federal government. This represented their share of money that was swept from the OA Revolving Trust fund to the general revenue fund in FY 05.

This program also covers any IRS penalties that have been assessed.

2. What is the authorization for this program, i.e., federal or state statute, etc.?

Cash Management Improvement Act; OMB Circular A-87, IRS Tax Code

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes. (see No. 1 above).

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. This appropriation also allows for transfers from various other funds into general revenue or any other state funds for short-term loans.

Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May sixteenth of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15 of any fiscal year.

Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15 to June 30 in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30 of the fiscal year in which the transfer was made.

2. CORE DESCRIPTION

This request provides the mechanism to transfer funds from general revenue and other funds into the Budget Reserve Fund pursuant to Section 27(a), Article IV, Constitution of Missouri, to pay back cash operating transfers made from the Budget Reserve Fund. This appropriation also allows for transfers from general revenue or any other state funds to various other funds to pay back cash operating transfers made from other state funds.

Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May sixteenth of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15 of any fiscal year.

Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15 to June 30 in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30 of the fiscal year in which the transfer was made. Other funds core is being reduced \$50 million in order to more closely match average annual expenditures.

2. CORE DESCRIPTION

Transfer authority is required to transfer monies from general revenue or the Budget Reserve Fund to meet the provisions of Article IV, Section 27, Constitution of Missouri.

If the sum of the ending balance of the budget reserve fund in any fiscal year, and any amounts owed to the fund, is less than seven and one-half percent of the net general revenue collections for the same year, the difference shall stand appropriated and shall be transferred from the general revenue fund to the budget reserve fund by the fifteenth day of the succeeding fiscal year. Likewise, if the balance in the budget reserve fund at the close of any fiscal year exceeds seven and one-half percent of the net general revenue collections for the previous fiscal year, that excess amount shall be transferred to the general revenue fund unless such excess balance is as a result of direct appropriations made by the general assembly for the purpose of increasing the balance of the fund; provided, however, that if the balance in the fund at the close of any fiscal year exceeds ten percent of the net general revenue collections for the previous fiscal year, the commissioner of administration shall transfer the excess amount to the general revenue fund notwithstanding any specific appropriations made to the fund.

2. CORE DESCRIPTION

An accepted accounting practice, allocations recover costs for services provided to other entities. For instance, the Federal government allows the State of Missouri to recover overhead costs for Federal programs through a Statewide Cost Allocation Plan (SWCAP),

Using standard accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of providing services to various state funds including those provided by the Office of Administration, the Department of Revenue, the Governor's office, the Lieutenant Governor's office, the Secretary of State's office, the State Auditor's office, the Attorney General's office, the General Assembly, and the Capitol Police. To determine a fund's participation eligibility, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other appropriate considerations.

2. CORE DESCRIPTION

This program distributes funding to counties in which National Forests are located. Revenue is received by the federal government for mineral leases, rentals, concessions, and timber from National Forest lands. A quarter of the revenue is returned to the states. The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to a schedule provided by the U.S. Departments of Agriculture and Interior. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.
